most of us are content to see ourselves as ordinary people unique in ways talented in others but still among the ranks of ordinary mortals andrew flescher probes our contented state by asking important questions how should ordinary people respond when others need our help whether the situation is a crisis or something less do we have a responsibility an obligation to go that extra mile to act above and beyond the call of duty or should we leave the braver responses to those who are somehow different than we are better somehow heroes or saints traditional approaches to ethics have suggested there is a sharp distinction between ordinary people and those called heroes and saints between duties and acts of supererogation going beyond the expected flescher seeks to undo these standard dichotomies by looking at the lives and actions of certain historical figures holocaust rescuers martin luther king jr dorothy day among others who appear to be extraordinary but were in fact ordinary people heroes saints and ordinary morality shifts the way we regard ourselves in relationship to those we admire from afar it asks us not only to admire but to emulate as well further it challenges us to actively seek the acquisition of virtue as seen in the lives of heroes and saints to learn from them a dynamic aspect of ethical behavior that goes beyond the mere avoidance of wrongdoing andrew flescher sets a stage where we need to think and act calling us to lead lives of self examination even if that should sometimes provoke discomfort he asks that we strive to emulate those we admire and therefore allow ourselves to grow morally and spiritually it is then that the individual develops a deeper altruistic sense of self a state that allows us

to respond as the heroes of our own lives and therefore in the lives of others when times and circumstance demand that of us

paul tillich and religious socialism towards a kingdom of peace and justice argues that the kingdom of god the reign of god over all human affairs via god s manifestations in love power and justice can be fragmentarily achieved through a religious socialism that creatively integrates the early tillich s socialist thinking with later insights throughout tillich s theological career and with contemporary developments in just peacemaking the resulting religious socialism is defined by economic justice and a recognition of the sacred reality in all human endeavors it employs christianity to furnish the necessary depth for warding off materialism and affirming the spiritual dimension of both labor and acquiring material goods the unbridgeable marxist chasm between expectation and reality is bridged through new being already historically inaugurated in the christhood of jesus new being is fundamentally oriented toward bringing justice to the poor the disenfranchised and the marginalized it affirms the individual and equal value of all persons and thus in kantian terms promotes a kingdom of intrinsically worthwhile ends rather than a kingdom of instrumentally worthwhile means of things

integrity is essential to judeo christian business ethics but today s business environment is complex those in business and those preparing to enter the business world need to grapple with the question of how integrity and biblical ethics can be applied in the workplace they need to go beyond integrity in their thinking beyond integrity is neither excessively theoretical nor simplistic and dogmatic rather it offers a balanced and pragmatic approach to a number of concrete ethical issues readings from a wide range of sources present competing perspectives on each issue and real life case studies further help the reader grapple with ethical dilemmas the authors conclude each chapter with their own distinctly christian commentary on the topic covered this third edition has been revised to provide the most up to date introduction to the issues christians face in today s constantly changing business culture revisions include 30 new case studies 13 new readings 50 substantially revised sidebars that reflect the issues in the news and business press summaries and material for discussion

rev detlef schwartz phd phd pastor and university lecturer draws a broad picture from addressing paul tillich s theology of culture to finding clues for a daily life ethics which is based upon the need for a meaningful inter religious dialogue it is called new ethics because liberation and process theology are connected with each other to find answers to the pressing themes of our times

from time to time in the study of theology it becomes necessary to evaluate what scripture has to say on certain crucial doctrines of the faith leon morris one of this generation s most respected evangelical scholars here offers a survey of the vast subject of atonement as it is presented in the new testament the cross in the new testament explores in turn matthew and mark the lukan writings john the pauline epistles hebrews the catholic epistles and revelation showing what each new testament scripture contributes to our understanding of atonement while morris emphasizes the need to appreciate the many strands woven into this doctrine he criticizes the views of modern scholars that do not square with the biblical teaching at the heart of the doctrine of atonement is the idea of substitution morris believes and his thorough examination and defense of substitutionary atonement make this volume a theological apologetic of great significance trusted as an exhaustive and reliable work of scholarship for over forty years the cross in the new testament remains an invaluable text for serious students of the bible

contains 70 readings from the fathers to bernard haring from catholic and protestant traditions

the practice of christianity is going through a transition that is deeper than the reformation the thinking christian explores two main questions 1 what is religion as a general social process that can link humans to profound reality and 2 what is a meaningful and appropriate mode of christian theologizing communal life and mission to this planet for a viable and vital next christian practice these are profound probes and they are communal and activist guidelines for general readers such union of the profound and the practical pertains to the needs of scholars as well

such polarized questions have hampered the quest for constructive welfare reform and have left christians criticizing each other as mere advocates of a bogus compassion or of a tough love that actually lacks love
